Feeling Run Down

Case 1

PARTICIPANT INSTRUCTIONS

Patient Information

- Patrick Donovan
- 24 years old man
- single, no children, living alone
- water plant engineer assistant, currently unemployed

Your Role

Primary care physician, seeing patient for the first time

The Scenario

- CC: feeling run down and trouble sleeping
- Vital signs: Normal
- The Medical History Form which patient completed in waiting room only indicated an appendectomy at age 10 and alcohol problems in the family.

Your Task

Explore patient's problem

(instead of performing a physical exam ask facilitator for findings if appropriate)

**3 months post-attack
Location: York**
